Early Support Visits by Caring Companions

Doing fine at home? A little help can still make a big difference.

A helping hand around the house. Good company. A familiar face to count on.

You are doing well, and you plan to keep it that way. Early Support Visits are for the days when a hand would be nice: fresh sheets on the bed, a pot of soup on the stove, a trip to the store, and someone good to talk to while it all gets done.

WHAT A VISIT LOOKS LIKE

A caregiver from our team comes for four hours, on a regular day we choose together. You and your caregiver decide what matters most that day. It might be:

- Dishes, the kitchen and the counters
- Sweeping, vacuuming and mopping
- Cleaning the bathroom
- Laundry and changing the bed
- Tidying and a little organizing
- Making a meal, with extra for later
- An errand or a ride

And good company the whole time.

HOW OFTEN

ONCE A MONTH	EVERY OTHER WEEK
$152	$140
each 4-hour visit	each 4-hour visit

Before visits begin, we come to your home to get to know you and write down how you like things done. That one-time assessment and setup is $99, separate from your visits and billed with your first visit.

FOR FAMILIES

If your mom or dad would like, our office sends you a short update after each visit: what we helped with, how the visit went, and anything we noticed that seemed worth mentioning. And you have a team that already knows your family if more help is ever needed.

GOOD TO KNOW

- Your visit is on the same day and time each time, so you can plan on it. Need to move one? Give us at least 24 hours' notice and there is no charge.
- We do our best to send someone you know. We will tell you who is coming.
- Every caregiver works for Caring Companions and has passed our background checks.
- We help you keep a comfortable home from one visit to the next. For a big deep-clean, we are glad to suggest a cleaning company.
- Someone is home during the visit, and we use the home's own cleaning products.
- These visits are not medical care. Early Support Visits are offered in Springfield.

To get started, call us.

The first phone conversation is free, and we will tell you honestly whether this is the right fit.
