OUR LEVELS OF CARE

Care that grows with them, without changing agencies.

Every level includes everything in the one before it. Most families start small, and add more help only when it's needed. You're never locked in, and you never start over with someone new.

LEVEL 1

Wellness Care

Company, good meals, a safe home and reasons to get out, so they stay independent longer.

- Friendly company and conversation
- Meal planning and cooking
- Light housekeeping and laundry
- Groceries, errands and rides
- Medication reminders and routines
- Outings and staying active
- Phones, pets, mail and hobbies

$30 an hour

LEVEL 2

Personal Care

For when bathing, dressing or getting up from a chair has become hard or risky.

Everything in Wellness Care, plus:

- Bathing, showering and hygiene
- Dressing, grooming and toileting
- Help with walking and mobility
- Safe transfers, like bed to chair
- Help with meals and eating
- Incontinence care

$32 an hour

LEVEL 3

Advanced Care

Closer attention and more experienced caregivers for more complex needs.

Everything in Personal Care, plus support for:

- Advanced Alzheimer's and other dementias
- More supervision for confusion or wandering
- Significant mobility limitations
- Parkinson's and stroke-related challenges
- More involved personal care and routines
- Families navigating changing needs

$34 an hour

Simple scheduling

At least 4 hours per visit and 8 hours per week. Every client gets a personal care plan and a caregiver matched to them.

Our employees, never contractors

Every caregiver is screened, insured and bonded. We handle the taxes, insurance and backup coverage.

All levels are non-medical care. Caregivers give medication reminders but don't give medicine or provide nursing care.

WHICH LEVEL FITS?

Find the row that sounds like yours.

Most families arrive knowing the situation but not the words for it. The last column is where families in that spot usually begin, not where they have to stay.

WHAT'S HAPPENING	WHAT IT USUALLY LOOKS LIKE	WHERE FAMILIES USUALLY START
"They're managing, but I worry in between"	Mostly independent. The worry is a fall nobody hears about, meals skipped, or too many days alone.	Wellness Care, often with HomeTogether TV
"The everyday things are slipping"	Laundry piling up, the fridge is bare, housework has quietly become too much.	Wellness Care
"They need hands-on help now"	Bathing, dressing, and getting safely to the bathroom are no longer manageable alone.	Personal Care
"They're coming home from the hospital"	The first days home carry the highest risk of a fall or a return trip. Needs usually taper as they recover.	Personal Care
"Memory is changing"	Repeated questions, confusion that worsens in the evening, or the first worries about wandering.	Personal Care or Advanced Care
"I'm the caregiver, and I'm worn out"	You are doing it all, and you cannot keep this pace and stay well yourself.	Respite Care
"They can't safely be alone"	Nights are the risk, or someone needs to be there around the clock.	Overnight or 24-Hour Care

HOW CARE CAN BE SCHEDULED

Any level, on the schedule your family needs.

Hourly Care
Visits of 4 hours or more, on the days and times that work for your family. Often where care begins.

Overnight Care
A caregiver from evening to morning, for bathroom trips, wandering, or anything after dark.

24-Hour Care
A rotating team on 8 or 12-hour shifts, so someone is always present, day and night.

Respite Care
Scheduled or as-needed relief, so the family caregiver can rest and recharge.

Book a free in-home assessment
We come to the home, meet your loved one, and tell you honestly which level fits. No cost and no obligation.

CALL ANY TIME
(417) 234-8494

2 Level 2 of 3 · Personal Care

Hands-on help, with their dignity always first.

When bathing, dressing or getting up from a chair has become hard or risky, a caregiver helps with the parts they can't do safely and lets them keep doing the rest.

WHAT'S INCLUDED

Personal Care doesn't replace Wellness Care. It adds to it.

LEVEL 1 · INCLUDED

All of Wellness Care

- Company and conversation
- Meal planning and cooking
- Light housekeeping and laundry
- Groceries, errands and rides
- Medication reminders and routines
- Outings and staying active

LEVEL 2 · ADDED

Plus hands-on personal care

- Bathing, showering and hygiene
- Dressing, grooming and toileting
- Help with walking and mobility
- Safe transfers, like bed to chair
- Help with meals and eating
- Incontinence care

WHY IT MATTERS

The riskiest moments of the day are the most private ones.

Getting in and out of the shower, up from the toilet, or out of bed are where many falls happen. A steady hand at those moments can be the difference between staying home and a hospital stay.

1 in 4
adults 65 and older fall each year. Falls are the leading cause of injury at that age

1 in 2
bathroom injuries in people 85 and older happen on or near the toilet

Most
hip fractures in older adults are caused by falls

3 in 4
adults 50 and older want to stay in their own home as they age

Sources: CDC, older adult falls; CDC MMWR, bathroom injuries, 2011; CDC MMWR, falls and hip fractures; AARP, 2024.

HOW WE DO IT

Done with them, not to them.

Needing help with a shower is hard for anyone. The way the help is given matters as much as the help itself.

They lead

Their routine, their choices

Morning or evening shower, which outfit, how they like their hair. We follow their way.

They do what they can

Help only where it's needed

If they can button the shirt, they button the shirt. Doing for themselves keeps strength up.

Privacy, always

Covered, doors closed, no rush

We keep them covered, explain each step first, and never hurry the most personal parts of the day.

Safe moves

Transfers, walking, the bathroom

Help to stand, turn and sit safely, using the walker, shower chair or grab bars they have.

A familiar face

The same caregivers when we can

Trust is what makes personal care feel normal. We try hard to send the same people.

Small changes noticed

A note after every visit

A red spot on the skin, eating less, a new wobble. Someone who helps every day sees it.

A REAL VISIT

What a morning can look like.

One example for a dad who uses a walker.

- **7:30** Good morning. Help sitting up and getting out of bed safely.
- **7:45** A warm shower on the shower chair, with help washing his back and feet.
- **8:15** Dressed in the shirt he picked, hair combed, ready for the day.
- **8:45** Breakfast together and a reminder for his morning medicine.
- **9:30** Fresh sheets, a load of laundry, and the kitchen cleaned up.
- **10:30** A walk down the block with his walker, or cards if it's raining.
- **11:30** Lunch made and ready, and a short note about how the morning went.

SIGNS IT MAY BE TIME

You might be noticing:

- Fewer showers, or the same clothes several days in a row
- A fall or a close call in the bathroom or getting out of bed
- Holding onto furniture to get across the room
- Trouble with buttons, shoes or reaching the feet
- Embarrassing accidents they try to hide
- A family member worn out from lifting and bathing

Seeing one or two of these is a good reason for a free in-home assessment. We'll tell you honestly whether Wellness Care is enough or Personal Care is the better fit.

$32 /hour

Includes everything in Wellness Care. A minimum of 4 hours per visit and 8 hours per week. Non-medical care: caregivers give medication reminders but don't give medicine, change dressings or do nursing tasks.

Book a free in-home assessment

We come to the home, meet your loved one, and tell you honestly which level fits. No cost and no obligation.

TRANSPARENT PRICING

Trusted care. Clear pricing. No surprises.

Families deserve honest, upfront pricing without the pressure of a sales call. Here are our rates, so you can plan with confidence.

LEVEL OF CARE	WHO IT'S FOR	RATE
Wellness Care Level 1	Mostly independent, but could use company, help around the house, meals, errands and rides. No hands-on personal care.	$30 /hr
Personal Care Level 2 · includes Level 1	Needs hands-on help with bathing, dressing, toileting, walking, or getting safely from one place to another.	$32 /hr
Advanced Care Level 3 · includes Levels 1 and 2	Advanced dementia, significant mobility challenges, or other conditions needing closer attention and more experienced caregivers.	$34 /hr

Scheduling

A minimum of 4 hours per visit and 8 hours per week. Overnight and 24-hour schedules are billed hourly, $30 to $34 depending on the level of care. 24-hour care is typically two 12-hour shifts or three 8-hour shifts a day.

Every client gets

A free in-home assessment, a personal care plan, and a caregiver matched to them. Your exact quote is based on your schedule and needs, not an estimate.

WAYS TO SAVE

Best Price Guarantee. For new private-pay clients, we'll beat a comparable written rate from a professional home care agency for your first 6 months. Additional eligibility terms may apply. Requires written pricing for comparable services and care needs. After six months, our standard rates apply.

HomeTogether TV included. With 20 or more private-pay hours a week, video calls and gentle check-ins on their TV come at no charge.

All levels are non-medical care. Services are based on an individual assessment, caregiver qualifications, and a personalized care plan.

WAYS TO PAY

More ways to pay than most families expect.

Private Pay

Billed directly at our published rate. No hidden fees.

Long-Term Care Insurance

If you paid into a policy, it may cover most or all of the cost. We verify your benefits, help with the claim forms, and can bill your carrier directly.

VA Benefits

VA Community Care and Aid & Attendance benefits for eligible veterans.

Medicare GUIDE

Covered dementia respite visits for eligible families with Original Medicare. We're an approved GUIDE respite provider.

WHAT HAPPENS NEXT

Getting started is one conversation.

1
Tell us what's going on
Call us any time, day or night, and share a few details.

2
Free in-home assessment
We visit, meet your loved one, and answer every question.

3
Your care plan
A personalized plan built around their needs and your budget.

4
Your caregiver
Matched by personality, skills and schedule.

NOTES FROM YOUR VISIT

We serve Greene, Christian, Webster and Polk counties, and Taney, Lawrence, Dallas and Stone counties when a caregiver is nearby.

Book a free in-home assessment
We come to the home, meet your loved one, and tell you honestly which level fits. No cost and no obligation.

THE PEOPLE WHO COME TO THE HOME

Meet your caregiver before they meet you.

Letting someone into your home is a big step. We take the time to match the right caregiver to your loved one, and we make sure you know who's coming before the first knock at the door.

Grace M.

Your caregiver from Caring Companions

6 to 10 years caring for people

A little about Grace

Grace is patient, calm and loves a good chat. Grace makes a great cup of coffee and always finds something to smile about.

An example profile. Grace is not a real caregiver.

THEIR PROFILE, BEFORE THE FIRST VISIT

Before the first visit, we share your caregiver's profile: a friendly photo, a little about them, their experience, and why they love caregiving. It's a private link just for your family, and a big button calls the office.

Matched with care

By skills, personality and schedule, using everything we learned at your assessment: routines, what your loved one enjoys, and what's gotten harder.

Checked and trained

At least a year of paid caregiving experience, our background checks, and our orientation before their first visit with a client.

Familiar faces

We aim to keep the same small group of caregivers with your loved one, so they get to know each other and their favorite things.

IF YOUR CAREGIVER CHANGES

Sometimes a caregiver is sick or their schedule changes. When someone else is coming, we text the people in your Family Circle who asked for it, with a link to the new caregiver's profile, so you can learn a bit about them before they arrive. You choose who gets those texts on your Contacts & Permissions form.

HOW WE KEEP FAMILIES INFORMED

You'll always know how things are going.

Whether you live down the street or across the country, you choose who stays in the loop and how.

1. **Your Family Circle**
   The people you choose to be part of your loved one's care, like a daughter, son or close friend. Only the people you approve hear about their care.

2. **Texts when it matters**
   If you tick the boxes, we text your Family Circle when a caregiver is running late, with an idea of when they'll arrive, and when there's a change in which caregiver is coming, with a link to the new caregiver's profile.

3. **A note after every visit**
   Your caregiver writes a note after each visit. Family members you give access can read them in AxisCare, along with the calendar and the weekly invoice.

4. **A care plan that keeps up**
   We review the care plan at least every 90 days, and often more. We read the visit notes, and when needs change we update the plan and the whole care team.

YOU DECIDE WHO SEES WHAT

- Who we may share health information with (HIPAA)
- Who gets texts, and which ones
- Who can see care notes and invoices in AxisCare
- Which emails each person gets

All on your Contacts & Permissions form, and you can change it any time.

NEED AN EXTRA VISIT?

Call the office at (417) 234-8494. A care coordinator will set it up, and we'll let you know who's coming.

WHAT IT LOOKS LIKE

Texts from Caring Companions

Hi Linda, A quick update from Caring Companions. Grace is running a little late for Dorothy's 9:00am visit today and expects to arrive around 9:20am. We're sorry for the wait. Questions? Call us at (417) 234-8494.

Hello, this is Caring Companions. Grace is unable to make Dorothy's visit on Thursday, so Maria from our team will be coming instead. Everything else about the visit stays the same. Meet Maria here: link to her profile Any questions at all, call us at (417) 234-8494.

Visit note — Tue · 9:00 to 1:00 · Grace M.

Dorothy was in good spirits today. We took a short walk around the block and made chicken noodle soup together, and she ate a full bowl. She took her 11:00 medication when reminded. Laundry is done and put away. She said her left knee was a little sore on the stairs, so I let the office know.

Done today Walk · Lunch · Medication reminder · Laundry

Examples with sample names. The texts are the exact words we send; visit notes are written by your caregiver after each visit.

Hoped-for start date _____ **Caregiver wishes** _____

Notes _____

This is an estimate to help you plan, not a bill. Your Client Care Agreement sets your rate, and your weekly invoice shows the time the caregiver is actually there.

GETTING STARTED

What happens next

Starting care is a big step. Here's how it usually goes, so nothing comes as a surprise.

1. **Tell us you'd like to start**
   Call us, or tell us before we leave today. There's no cost to talk it over with your family first.

2. **Sign your Client Care Agreement**
   On our tablet with a finger signature, from home with a link we text or email you, or on paper. You'll get your own copy.

3. **Choose your contacts and permissions**
   Who we can talk to about care, who gets texts, and who can see care notes and invoices.

4. **Set up payment**
   A card or bank account on file for weekly autopay, or the details for your insurance or benefits.

5. **We match your caregiver**
   By skills, personality and schedule. We share their profile with a friendly photo before the first visit.

6. **We confirm the first visit**
   We call you to confirm the day, the time and who's coming.

7. **The first visit**
   Your caregiver follows the care plan and writes a note after every visit.

8. **We check in**
   A few days after the first visit, we call to see how it's going and adjust anything that needs it.

GOOD TO HAVE READY

- The names and numbers of the people you want in your Family Circle
- How caregivers will get into the home (a lockbox, a code, or someone to open the door)
- A backup person we can call if we can't reach the home
- Your card, bank or insurance details

YOUR CLIENT HANDBOOK

Everything about how care works, billing, your rights and how to reach us is in the handbook in this folder.

Ready to start, or have questions?
Call us any time. A real person answers, day or night.

FOR FAMILY MEMBERS WITH AXISCARE ACCESS

See care notes and invoices, any time.

AxisCare is the system we use to schedule care, record each visit and send invoices. Family members you choose on your Contacts & Permissions form get their own sign-in, so you can check in without waiting for a call.

1. **Check your email is on file**
   The email on your Contacts & Permissions form is the one AxisCare knows. Your access matches what was checked there: care notes, invoices, or both.

2. **Go to 16485.axiscare.com**
   On a phone, tablet or computer. Scan the code on this page to go straight there.

3. **Choose "Activate account"**
   Enter the same email address we have on file for you.

4. **Follow the short steps**
   AxisCare walks you through creating your own password.

5. **Sign in any time**
   Come back to 16485.axiscare.com and sign in with your email and password.

16485.axiscare.com

Write down the email you use to sign in:

_____

WHAT YOU CAN SEE

- **Calendar:** upcoming visits
- **Care notes:** the caregiver's note from each visit
- **Invoices:** your weekly invoice and payments

Keep your sign-in private. Each person has their own sign-in. Please don't share yours, so we always know who can see your loved one's information.

Need an extra visit or a change? Call the office and a care coordinator will set it up.

Trouble signing in?

Call us and we'll check that your email is on file and help you get set up.
