WHEN MORE HOURS ARE NEEDED

Someone there through the night, or around the clock.

Any level of care can be scheduled for nights, for 24 hours a day, or as a break for the family caregiver. You can move between them as needs change, without switching agencies.

Overnight Care

For families whose biggest worry is the hours between dinner and breakfast. A caregiver comes in the evening and stays through the night, typically an 8 to 12-hour shift, ready to help with bathroom trips, wandering, medication reminders, or anything else that happens after dark.

A GOOD FIT FOR

- Families most worried about nighttime falls or wandering
- Families who manage the days themselves but need overnight relief
- Someone just home from the hospital who needs a few watched nights

Awake or asleep? It depends on the plan. Some overnight shifts are awake care. Others allow the caregiver to sleep, alert and available if needed. We match this to their safety needs.

24-Hour Care

A rotating team of caregivers on 8 or 12-hour shifts, so someone is always present, alert and available, day and night. For families who need constant hands-on help, not just a check-in.

A GOOD FIT FOR

- People returning home from a hospital stay or rehab
- Anyone with mobility issues who shouldn't be alone
- Those who wander or are active through the night
- Families who need constant hands-on help

How it's scheduled. Typically two 12-hour shifts or three 8-hour shifts a day, billed hourly based on the schedule we build together.

WHAT'S INCLUDED, DAY OR NIGHT

- **Fall prevention, mobility & transfers**
- **Bathing, toileting & incontinence care**
- **Medication reminders & routines**
- **Meals, dressing & light housekeeping**

Hands-on help depends on the level of care in their plan. All of our care is non-medical.

RESPITE CARE

Rest, knowing your loved one is in good hands.

Respite care gives a family caregiver time off, to rest, recharge, or take care of their own life, while one of our caregivers steps in.

Regularly scheduled respite

When you can plan ahead: an ongoing shift, daily, weekly, every other week or monthly, from 4 to 24 hours. We do our best to send the same caregiver each visit.

As-needed respite

Sometimes it can't be planned. You get sick, another family member needs you, or you wake up exhausted. Call us, and we'll work to find a caregiver for your family's need.

What a respite caregiver does

Follows the care plan, including morning and bedtime routines, personal care through the day (bathing, toileting, grooming, dressing, mobility and transfers), medication reminders, light housekeeping and laundry, rides and shopping, meals, and company and supervision. They work with you to make the hand-off easy for your loved one.

A BREAK FOR YOU, A GOOD DAY FOR THEM

A respite visit can include an outing: lunch at a senior center, the library, or a walk in a garden. The caregiver drives and stays with them the whole time.

CAREGIVER, RUNNING ON EMPTY?

Burnout is common, and asking for help isn't giving up. A few hours can make all the difference. If your loved one lives with dementia, ask us about Medicare GUIDE respite visits.

$30–34 /hour

Overnight, 24-hour and respite care are billed hourly at the rate for their level of care: Wellness $30, Personal $32, Advanced $34. Visits are at least 4 hours.
Best Price Guarantee. For new private-pay clients, we'll beat a comparable written rate from a professional home care agency for your first 6 months. Additional eligibility terms may apply.

Book a free in-home assessment

We come to the home, meet your loved one, and tell you honestly which level fits. No cost and no obligation.
