Quality Caregivers 24♥7♥365

PRN TEAMS · SPRINGFIELD, MO

We stand in the gap so families never go without care.

When a caregiver calls off or a family needs extra help, someone has to step in. That's our PRN Teams. You choose when you help, and the families you help notice.

> “ PRN is not a lesser job. Our PRN Teams are our care continuity team. When a client needs coverage, you're among the first people we call.

How it works

You tell us your times
Which days, times and towns work for you, and whether a same-day text is ever OK.

We text you when a shift fits
Reply YES or NO. No pressure, and a no is never held against you.

Hours come and go
Some weeks a lot, some weeks none. Want regular hours someday? Tell us any time.

We check in every 60 days
A quick text to make sure your times are still right. Change them whenever you need to.

Once you say yes, a family counts on you

- If something comes up, **call the office right away**, day or night. Never just the client.
- You'll often meet a client for the first time. We tell you what we can, and the office is a call away.
- If a client falls, **never lift them or help them up**, even if they ask. Stay with them, call 911 if they're hurt or you're not sure, and call the office every time.
- Clock in and out on your phone at every visit.

Field Support Visits PRN CNA TEAM AND LEVEL 3 PRN CAREGIVERS

Experienced PRN CNAs, and Level 3 PRN caregivers when there's an opportunity, can be approved by the office to be our eyes and hands in the field. Always optional, paid like any PRN shift.

Step in for more care
When a client needs more than their regular caregiver's level, like lift transfers.

Help another caregiver
A refresher in the client's home with their own equipment, like a Hoyer lift.

Care update visit
When a client is changing, visit, observe and send a short "What's changed" report to the Care Coordinator.

Needs verified experience in that skill. You report what you see; the Care Coordinator decides any care plan change.

Our office line works day and night

Quality Caregivers 24♥7♥365

TWO TEAMS, EQUALLY IMPORTANT

PRN Caregiver Team

At least 1 year of paid caregiving

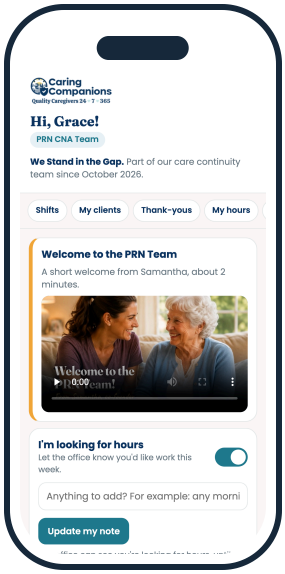

- Step in for call-offs and one-time visits
- Care within your approved level
- Be a second set of hands when needed
- Level 3 caregivers may have the opportunity to sign up for on call and Field Support Visits

PRN CNA Team

Current CNA and at least 1 year of experience

- Our most experienced group, called when a client needs more care
- Field Support Visits, if you'd like (see the front)
- Optional on-call shifts, one time or every week. We talk about it at your welcome call.

Your own PRN Team page

- **Shifts:** visits offered to you, and open shifts you can tap "I'm interested" on
- **My clients:** the families you've cared for, so you're asked first when they need someone
- **Thank-yous:** kind words from families and the office
- **My hours:** change your days and times, take a break, or tell us you're looking for hours
- **On call** for the PRN CNA Team and Level 3 caregivers, plus our monthly team update and a welcome video

No password or app to download. Once you're on the team, we text you your own personal link.

Room to grow

Regular hours

A steady schedule is always open to you, never required.

Caregiver to CNA

Earn your CNA and you can move to the PRN CNA Team.

Into the office

We like to hire our Care Coordinators from within.

What happens next

1. **Sign your offer letter.** We text and email you a link to sign it.
2. **Your Step One application** comes to you automatically once you sign.
3. **We run your background and reference checks.** We'll let you know if we need anything.
4. **A 2-hour orientation,** online and paid, from home.
5. **A welcome call, then your first text.** Say yes when you can.
