FOR VA CARE TEAMS, SOCIAL WORKERS AND DISCHARGE PLANNERS

Your veteran can choose their caregiver.

Caring Companions In-Home Senior Care is in network with the VA Community Care Network for Homemaker and Home Health Aide services in Springfield and nearby counties.

Someone they already trust

Many veterans would rather not have a stranger in their home. With a referral to Caring Companions, the veteran can choose:

- **A family member or friend** they already trust. We hire them as our employee, they complete background checks and orientation, and we pay them weekly.
- **Or one of our caregivers**, matched to the veteran's needs and schedule.

What our caregivers help with

- Bathing, dressing, grooming and toileting
- Help getting around safely at home
- Meals, light housekeeping and laundry
- Medication reminders
- Companionship and errands
- Respite for a family caregiver

Non-medical home care. We do not provide skilled nursing.

How to refer

1. Place a Community Care referral for **Homemaker and Home Health Aide** services and name **Caring Companions In-Home Senior Care** as the provider.
2. If the veteran has a family member or friend in mind, note their name. It helps us start their hiring paperwork right away.
3. Call us if you have questions. We are glad to talk through a veteran's situation before you refer.

What we handle

- We call the veteran and family, usually the same business day.
- We help with the paperwork from start to finish, over the phone, and can fax, send or mail forms for them.
- In-home assessment, care plan and caregiver supervision.
- Electronic visit verification on every visit.
