CARE ON YOUR SCHEDULE

Care when you want it, right from your phone.

Not every family needs a set schedule. With the Caring Companions app, you can ask for a Wellness Care visit when you want one, with no weekly minimum. Use it on its own for flexible care, or on top of a regular schedule.

From 2 hours · Any day, 7am to 6pm · No weekly minimum · See the cost first

HOW IT WORKS

1
A living room meeting
We meet your loved one at home and learn their routines, what they enjoy, and what's gotten harder.

2
A care plan together
We write down the help they need and the caregivers who fit, so every visit starts from the same page.

3
Ask for visits in the app
Pick a day, a set time or a flexible window, what would help, and who you'd like. You see the cost before you send it.

WHAT THE APP BOOKS

Wellness Care (Level 1)
Company and conversation, meals, light housekeeping and laundry, groceries and errands, rides, medication reminders, outings, help with phones and video calls, pets and plants, mail, and hobbies.

Hands-on help like bathing, dressing or transfers is Personal Care, and our care team schedules it with you.

WHAT IT COSTS

Only the visits you ask for.
- Billed at your regular hourly rate, on your weekly invoice
- No extra charge for visits under 4 hours
- No weekly minimum
- The app is free any month you have a visit (a small fee in months without one, listed in your Client Care Agreement)

TWO WAYS TO USE THE APP

On its own, or with a regular schedule.

Some families only want help now and then. Others have care they count on every week and want a way to add more. The app works for both.

APP ONLY

Flexible care, no set schedule

- Ask for a visit only when you want one
- From 2 hours, with no weekly minimum
- Any day, 7am to 6pm
- Say who you'd like, and we'll ask them first
- Great for a little help now and then, rides and errands, or a break for family

WITH A REGULAR SCHEDULE

Care you can count on, plus extras

- Set days and times, written into the care plan
- At least 4 hours a visit and 8 hours a week
- Any level: Wellness, Personal or Advanced Care
- The same caregivers whenever we can
- Add extra visits from the app any time

Good to know. When you ask for a visit in the app, it's a request. It goes out to our caregivers, and a caregiver who's free can pick it up. We'll let you know who's coming, or if no one is free. **We can't promise a caregiver for every request.** If your loved one needs care at set times, like help every morning or with medications, a regular schedule is the way to make sure of it.

IDEAS FOR APP VISITS

A ride and errands
The pharmacy, the grocery store, the post office.

A break for you
A couple of hours to run your own errands or rest.

A good day out
Lunch out, the library, a garden walk.

Catching up at home
Laundry, a tidy kitchen, a meal for later.

Getting started
It starts with a free living room meeting. Once your care plan is in place, we'll set you up in the app and show you how to sign in.
